Ulyanovsk City Lyceum at Ulyanovsk State Technical University

Key skills

Languages

Russian — Native
English — B1 — Intermediate

Skills

Vue Node.js JavaScript TypeScript Sass MySQL Mentoring Project Management
Leadership BEM Nuxt REST

Additional information

About me

Started my journey by creating AI in C++ and Python, loved matrixes and math, however, frontend is closer, familiar with TreeJS and popular frameworks such as Vue, React. Vue is preferred. Also actively studying Nest JS & Laravel 10 to expand my knowledge and skills in server-side development. Have been involved in projects such as e-commerce, CRM, online movie theaters and corporate blogs. Also have a GitHub where you can see my latest work.

Pre-interview Interview.

Questions:

1. What do you like about the job?
3. What do you dislike about the job?
4. What is the most convenient time (UTC:3:00+) for you to work?

Answers:

2. A sociable team, horizontal scalability of the company rather than a bunch of unnecessary paperwork.
3. Unpaid overtime, toxicity, lies from coworkers and distrust.
4. 9:00 a.m. - 7:00 p.m. (one hour for lunch)

Counter questions to the employer:

1. Who is conducting the interview. Who will make the hiring decision?
2. What will the work day look like?
3. Do you conduct code reviews, how often.
4. Who do I report to?
5. Do you write tests?
